

Prof. Dr. Haluk Akbaş's Biography

I graduated from İstanbul University Cerrahpasa faculty of Medicine in 1987
In 1993, I completed my cardiothoracic surgery training of İstanbul Koşuyolu heart and Research Hospital.

In 1999, I became an assistant Professor in the Department of Cardiovascular surgery at Kocaeli University.

I became associate professor doctor in 2006

I became Professor of CardiCardiac surgery in 2011.

I personally performed approximetely 10000 heart operations in my professional life.

I have been doing completely minimally invasive heart surgery in recent years.

I especialy work on coronary bypass operations with left anterior mini thoracotomy (MIDCAB)

Hybrid surgeries with aortic aneurysm and dissections, as well as EVAR and TEVAR applications.

Peripheral arterial stent and druf eluted ballon applications.

Closed varicose operations with endovenous lazer ablation (EVAR)

Catheter thrombolysis and thrombectomy in pulmonary embolism and deep vein thrombosis.

Minimally invasive heart valve operations
